AMARILLO DAILY NEWS, SATURDAY MORNING, JUNE 3, 1916

DIAGONAL layers of cords placed loosely side by side, without cross-weave—each cord, each layer imbedded in springy, live rubber.

Extreme flexibility, resilience and responsiveness in the tire, great oversize, with increased volume and cushioning of air.

Such is the Goodyear Cord—the tire of utmost comfort, and of utmost protection from stone-bruise and blow-out.

Judged by increasing sales, these advantages are worth more to Goodyear Cord users than the price-difference which they pay for the tires.

What Others Have Done

You can do. You can reward yourself by choosing
who should supply your light and heating and give
them not to greatest payment. You already do others,
only we plan more business and interest is shared. Let
us go over our plans with you.

Have you seen the new handbooks we are sending
out? They are wonderful.

"STRAIGHT AHEAD"

and June, "straight ahead" is the keyword that could jinx us. We are well fitted to move your goods to you faster. This factor... less time both upon land. The people whom we have served speak well of us, and that has helped to a large measure keep us busy with rapidly moving loads.
